Regarding the issue of helping active-duty service members to transition to Veteran status, VA plans to offer and provide transition services in the southwest corner of the VA campus, near the U.S. Army Reserve Center and Army National Guard Recruiter facilities adjacent to the GLA campus. VA understands that service members often encounter a series of needs as they transition out of the military. Such needs could include securing employment and housing, addressing physical or mental health issues, and adjusting to civilian culture. The ease through which this transition is made has a profound impact on post service well-being. To complement the planned transition services, VA has also established a new Welcome Center in Building 257, where Veterans have access to a facility and setting that facilitates peer to peer interaction and socialization, and VA and non-VA support providers. Improved transition into VA will heighten the existing need for expanded primary care and targeted hiring. VA plans to address those needs through more targeted VA hiring at the campus, and improved options for Veteran care through the Choice Act.

For more information on these issues, see Chapter IV, Figure V-7, and Chapter V of the Draft Master Plan.
